**Customer Update: Nutrison Factory Change, Changes in Product Code**

Dear Valued Customer,

Thank you for your support and patience as we continue to work to optimise our global supply chain.

As communicated previously, please be advised that a factory change will commence for selected NUTRISON products starting from October 2025. The timing of this transition will vary depending on the specific product.

This change is part of our ongoing commitment to ensuring the continued supply of high-quality nutritional products without disruption. Importantly, there will be **no changes to the nutritional composition or barcodes** of the affected products. However, **product ordering codes will be updated** as a result of the change.
